OBJECTIVE

Software professional with 2+ years of experience in developing and optimizing scalable solutions. Skilled in troubleshooting, performance tuning, and collaborating across teams to deliver projects on time. Committed to continuous learning and adopting emerging technologies.

ACADEMIC DETAILS

S.NO.	QUALIFICATION	NAME OF THE INSTITUTION	UNIVERSITY/ BOARD	PERCENTAGE	YEAR OF PASSING
1	B.E.- CSE	K. Ramakrishnan college of Engineering, Trichy	Autonomous	83%	2024
2	HSC	AKKV Aarunadu Matric Higher Secondary School, Trichy	State Board	68.83%	2020
3	SSLC	Mahatma Gandhi Centenary Vidyalaya School, Trichy	CBSE	67.80%	2018

TECHINICAL SKILLS

- **Database Management:** MySQL.
- Power BI
- **Cloud Services:** Azure.
- Networking
- **Programming Skills:** Python, Java
- **Automation:** PowerShell
- **Device Management:** Intune, SCCM, AD

PROJECT DETAILS

Current Project:

1. **Project Name:** New Yor-IT Core Patching Opera

   Organization: Cognization Technology Solutions

   Client Name: New York University Langone Health

   Technology: Power BI Desktop, Power BI Service and SQL.

   Scope:

   - Developed and maintained enterprise Power BI dashboards to provide centralized visibility into IT infrastructure, enabling proactive monitoring and reporting across various technology domains.
   - Designed interactive reports and dashboards to track server patching compliance, end-user device status, network performance, database health, and storage utilization, ensuring accurate and real-time operational insights.
   - Collaborated with infrastructure and leadership teams to deliver actionable analytics, support health checks, identify trends and potential risks, and facilitate data-driven decision-making for improved operational efficiency and service reliability.

2.Project Name Hays Windows 11 Transformation

Organization: Cognization Technology Solutions

Client Name: Hays

Technology: Intune, SCCM, AD, PowerShell and SQL.

Scope:

- Successfully migrated enterprise devices from Windows 10 to Windows 11, troubleshooting OS and application issues throughout the migration lifecycle.
- Managed endpoint administration using Intune and SCCM, performed SCCM SQL reporting, administered Active Directory environments, and automated operational tasks using PowerShell to improve deployment efficiency and user experience.

College Project:

1.Project Name: Integrated facial recognition-based attendance system (2024)

Technology: Android (Kotlin), Java, MySQL, ML kit

Scope:

- Built an Android app for attendance management using facial recognition during check-in and check-out.
- Integrated Java backend with MySQL database for secure data storage and validation.
- Implemented real-time attendance reporting for participants in a specific area.

2.Project Name: Smart IoT based blood bank system (2022)

Technology: HTML, Java, MYSQL

Hardware: ESP8266, Arduino UNO

Scope:

- Designed a web-based system to send messages to blood requesters.
- Messages include details about the nearest blood donor and a list of nearby blood banks.
- Integrated hardware components (ESP8266 and Arduino UNO) for real-time communication.

CERTIFICATIONS

- Completed "Microsoft Azure Fundamental AZ-900" Certification-(2025)
- Completed "Microsoft Azure AI-900" Certification-(2026)
- Completed "Microsoft AB-900" Certification-(2026)
- Completed "AWS Fundamental" in Udemy.
- Completed "Power BI Fundamentals Course" in Udemy.
- Completed "Intune Microsoft Training Course" in Udemy.
- Completed "SQL Boot Camp Course" in Udemy.
- Completed "Wipro Future skills nasscom - Artificial Intelligence" -(2022)
- Completed "Oracle - Java Fundamental" Certification -(2023)

INTERNSHIPS

- Completed 15 days of internship in "Internet of Things" in Galwin Technology, Trichy.
- Completed 2 months of business development intern in Movidu Technology, Hyderabad.

DECLARATION

I hereby declare that the information stated above is true to best of my knowledge and belief.
